REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors of
American Friends of the Hebrew University, Inc.

We have audited the accompanying consolidated financial statements of American Friends of the Hebrew University, Inc. (the “Organization”), which comprise the consolidated statement of financial position as of September 30, 2016, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the financial statements.

Management’s responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of American Friends of the Hebrew University, Inc. as of September 30, 2016, and the changes in their net assets and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matter - Report on 2015 summarized comparative information

We have previously audited the Organization's 2015 consolidated financial statements (not presented herein), and we expressed an unmodified audit opinion on those audited consolidated financial statements in our report dated March 29, 2016. In our opinion, the accompanying summarized comparative information as of and for the year ended September 30, 2015 is consistent, in all material respects, with the audited financial statements from which it has been derived.

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements
September 30, 2016

1. NATURE OF OPERATIONS

The American Friends of the Hebrew University, Inc. (the “Organization”) is an independent not-for-profit organization incorporated in New York in 1931. The primary goals of the Organization are to promote, encourage, aid and advance higher and secondary education, research and training in all branches of knowledge in Israel and elsewhere, and to aid in the maintenance and development of the Hebrew University of Jerusalem in the State of Israel (the “Hebrew University”). Grants awarded to Hebrew University include, but are not limited to, those for scholarships and fellowships, research, capital projects, faculty recruitment, and equipment.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements of the Organization have been prepared on the accrual basis. Generally accepted accounting principles in the United States of America (“US GAAP”) requires that unconditional promises to give (pledges) be recorded as receivables and revenues at estimated fair value within the appropriate net asset category in accordance with donor-imposed restrictions. US GAAP establishes standards for general purpose external financial statements of not-for-profit organizations, including a statement of financial position, a statement of activities and a statement of cash flows. US GAAP requires that resources be classified for accounting and reporting purposes into three net asset categories: permanently restricted net assets, temporarily restricted net assets and unrestricted net assets according to donor-imposed restrictions. The consolidated financial statements include the financial position, changes in net assets and cash flows of American Friends of the Hebrew University Charitable Common Fund, Inc., a corporation under the control of the Organization.

The consolidated financial statements include certain prior year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Organization’s consolidated financial statements as of and for the year ended September 30, 2015, from which the summarized information was derived.

Classification of Net Assets

Net assets, revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

Permanently Restricted - Net assets subject to donor-imposed stipulations that they be maintained permanently by the Organization. Generally, the donors of those assets permit the Organization to use all or part of the income earned on related investments for a specific purpose. These specific purposes include projects at the Hebrew University or other institutions for matters such as scholarships and fellowships, research, capital projects, faculty recruitment, and equipment.

Temporarily Restricted - Net assets subject to donor-imposed stipulations, including net appreciation on permanently restricted endowment funds, that may or will be met by actions of the Organization or the passage of time. Temporarily restricted net assets consist of those net assets subject to donor-imposed restrictions for projects of the American Friends of the Hebrew University, Inc. at the Hebrew University or other institutions for matters such as scholarships and fellowships, research, capital projects, faculty recruitment, and equipment.

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements
September 30, 2016

Unrestricted - Net assets not subject to donor-imposed stipulations. Unrestricted net assets are available for the support of the Organization's operations.

Net assets were released from donor restrictions for the years ended September 30, 2016 and 2015 by incurring expenses satisfying the restrictions, through the passage of time or by occurrence of other events specified by donors. The purpose restrictions that were accomplished were primarily for scholarships and fellowships, research, capital projects, chairs, and other projects at the Hebrew University.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in unrestricted net assets. Expirations of temporary restrictions on net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as a release from restriction.

Contributions

Contributions, including unconditional promises to give, are recognized as revenues in the period received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. Contributions other than cash are recorded at their estimated fair value. Pledges of contributions to be received after one year are discounted at an appropriate discount rate. Amortization of discount is recorded as additional contribution revenue in accordance with donor-imposed restrictions, if any, on the contributions. The allowance for doubtful accounts is determined based upon annual review of account balances, including age of the balance and historical collection experience.

Through the fiscal year ended September 30, 2016, four donors signed agreements indicating intentions to make contributions totaling \$2.1 million to be paid to the Organization over periods ranging from two to ten years. Although management is confident regarding receipt of the entire \$2.1 million, since the agreements include conditional language, the related revenues cannot within the framework of US GAAP be recognized in the Organization's consolidated financial statements, except to the extent of \$1.3 million, the amount for which the conditions have been met through September 30, 2016.

Not reflected on the consolidated financial statements are testamentary bequests of approximately \$27,199,000 and \$20,870,000 as of September 30, 2016 and 2015, respectively (unaudited), without evaluation as to collectability. Such amounts have not been recorded because individuals making such bequests retain the right to modify their wills and change the beneficiaries.

Not reflected on the consolidated financial statements are contributions by US donors and estates made directly to Hebrew University of approximately \$3,429,000 and \$8,547,000 for the years ended September 30, 2016 and 2015, respectively (unaudited), resulting from the Organization's fundraising and marketing efforts.

Investments

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. As required by US GAAP for fair value measurement, the Organization uses a fair value hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available.

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements
September 30, 2016

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs reflect assumptions that market participants would use in pricing the asset or liability based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the transparency of inputs as follows:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities. A quoted price for an identical asset or liability in an active market provides the most reliable fair value measurement because it is directly observable to the market.
- Level 2 - Pricing inputs other than quoted prices in active markets, which are either directly or indirectly observable. The nature of these securities include investments for which quoted prices are available but traded less frequently and investments that are fair valued using other securities, the parameters of which can be directly observed.
- Level 3 - Securities that have little to no observable pricing. These securities are measured using management's best estimate of fair value, where the inputs into the determination of fair value are not observable and require significant management judgment or estimation.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment by the Organization. The Organization considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorization of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Organization's perceived risk of that instrument.

Investments in marketable securities are stated at fair value based on quoted market prices. Refer to Note 5 for marketable securities classified within the fair value hierarchy. State of Israel Bonds are generally stated at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade date basis. Cost of investments represents original cost for purchased securities or average market value at the date of receipt for contributed securities. Realized gains and losses on investments in securities are calculated based on the average cost method and are reflected in the accompanying consolidated statement of activities. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Investments in real estate are recorded at appraised value at date of donation. A majority of the Organization's investments are held in custody by Northern Trust Corporation.

Alternative investments include investments in limited partnership funds (hedge funds and private equity of nonregistered funds). Alternative investment interests are stated at fair value based on financial statements and other information received from the funds. Fair value is the estimated net realizable value of holdings priced at quoted market value (where market quotations are available), historical cost or other estimates including appraisals. The Organization believes that the stated value of its alternative investments was

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements
September 30, 2016

a reasonable estimate of their fair value as of September 30, 2016 and 2015. However, alternative investments are not readily marketable and many alternative investments have underlying investments which do not have quoted market values. The estimated value is subject to uncertainty and could differ had a ready market existed. Such differences could be material to the valuation of some of the Organization's alternative investments. The amount of gain or loss associated with these investments is reflected in the accompanying consolidated financial statements. Furthermore, these investments are measured using a net asset value ("NAV") and are exempted from categorization within the fair value hierarchy and related disclosures. Instead, the Organization separately discloses the information required for assets measured using the NAV practical expedient, and discloses a reconciling item between the total amount of investments categorized within the fair value hierarchy and total investments measured at fair value on the face of the financial statements.

Income on Investments

Income on investments is reported as increases in permanently restricted net assets if the terms of the gift require that the income be added to the principal of a permanent endowment fund and as increases in temporarily restricted net assets if the terms of the gift impose restrictions on the use of the income. Realized and unrealized gains or losses on investments are reported in accordance with donor wishes and, if silent, those respective gains or losses are recorded in the same net asset classification as interest and dividends.

Cash and Cash Equivalents

For purposes of the consolidated financial statements, the Organization considers all highly liquid debt instruments with original maturity dates of three months or less to be cash equivalents. Although cash balances are maintained in large financial institutions, the balances at times exceed federally insured amounts.

Fixed Assets

Fixed assets consist of leasehold improvements, furniture and equipment and are recorded at cost. Depreciation is recorded on the straight-line method over the estimated useful lives of the assets ranging from 3 to 10 years. Amortization of leasehold improvements is also recorded using the straight-line method over the life of the lease, which is 11 years, and is the lower of the useful life or the lease term.

Grants

All appropriations for grants to Hebrew University are recorded as an expense and liability. All new grants are approved by the Organization's Board of Directors annually.

Use of Estimates

The preparation of consolidated financial statements in conformity with US GAAP requires the Organization's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. The most significant assumptions relate to the realization of pledges receivable and the carrying value of investments. Actual results could differ from those estimates.

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements
September 30, 2016

Income Taxes

The Organization follows guidance that clarifies the accounting for uncertainty in tax positions taken or expected to be taken in a tax return, including issues relating to financial statement recognition and measurement. This guidance provides that the tax effects from an uncertain tax position can be recognized in the consolidated financial statements only if the position is “more-likely-than-not” to be sustained if the position were to be challenged by a taxing authority. The assessment of the tax position is based solely on the technical merits of the position, without the regard to the likelihood that the tax position may be challenged.

The Organization is exempt from income tax under IRC section 501(c)(3), though it is subject to tax on income unrelated to its exempt purpose, unless that income is otherwise excluded by the Code. The Organization has processes presently in place to ensure the maintenance of its tax-exempt status; to identify and report unrelated income; to determine its filing and tax obligations in jurisdictions for which it has nexus; and to identify and evaluate other matters that may be considered tax positions. The Organization has determined that there are no material uncertain tax positions that require recognition or disclosure in the consolidated financial statements.

Measure of Operations

Included in operating net assets are resources used for the general support of the Organization’s operations, including investment return appropriated for expenditure under the spending policy.

Non-operating activities include: (1) investment return, in excess of amounts used for operations, (2) contributions, legacies and bequests for restricted split-interest agreements and endowment purposes, (3) changes in value of restricted split-interest agreements, (4) pension related activities other than net periodic pension cost, and (5) other items considered to be unusual or nonrecurring in nature.

Underwater Endowment Funds

As of September 30, 2016 and 2015, 1 and 26 individual named endowment funds had estimated fair values that aggregated \$53,154 and \$451,301 less than their permanently restricted historical dollar value. This was the result of aggregated declines in financial markets since the endowment funds were established. Endowments with fair value less than their permanently restricted historic dollar value are often referred to as “underwater” endowments. Though the Organization is not required by donor-imposed restriction or law to use its unrestricted resources to restore the endowments to their historic dollar values, accounting guidance for not-for-profit organizations requires that such losses and subsequent gains be reflected as changes to unrestricted net assets until the fair values of these underwater endowments again reach their historical dollar values.

3. INTEREST RECEIVABLE AND OTHER ASSETS

Current and long-term interest receivable and other assets consisted of \$264,000 and \$563,000 of interest and dividends receivable and \$718,000 and \$743,000 of other assets as of September 30, 2016 and 2015, respectively.

Discount rates for pledges outstanding at September 30, 2016, ranged from 0.23% to 4.41%. Discount rates for pledges outstanding at September 30, 2015, ranged from 0.23% to 4.41%.

Concentrations

For the years ended September 30, 2016 and 2015, one donor's contributions totaled 11% and 15%, respectively, of the Organization's total operating support and revenue. At September 30, 2016 and 2015, two donors' gross pledge balances represented 33% and 43%, respectively, of the Organization's gross contributions receivable.

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements
September 30, 2016

The Organization uses the NAV to determine the fair value of all the underlying investments which: (a) do not have a readily determinable fair value and (b) prepare their investees financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. Per the accounting standard governing NAV as a practical expedient, the following table lists investments in other companies by major category as of September 30, 2016 and 2015 (in thousands):

2016

The Organization's spending policy states distributions from all endowment funds if not otherwise limited shall be limited to 4% and 4.5% in fiscal years 2016 and 2015, respectively.

For fiscal 2016 and 2015, \$275,000 and \$250,000, respectively, of investment advisory and custodial fees were netted against investment income.

6. SPLIT-INTEREST AGREEMENTS

The Organization is a beneficiary under certain split-interest agreements in which the donor has established a charitable remainder unitrust, annuity trust or charitable gift annuity with specified distributions to be made over the term of the trust to the donor and/or other beneficiaries. The Organization manages and invests these assets on behalf of these beneficiaries until the agreement expires and the assets are distributed. Contribution revenue is recognized at the date the trust or annuity contract is established after recording liabilities for the present value of the estimated future payments expected to be made to the donors and/or other beneficiaries. The liabilities are adjusted annually for changes in the life expectancy of the donor or beneficiary, amortization of the discount and other changes in the estimates of future payments. The discount rate used to value new split-interest agreements ranged from 1.8% to 2.2% and 2.0% to 2.2% for the years ended September 30, 2016 and 2015, respectively. The Organization recorded contributions from new split-interest agreements of approximately \$1,140,300 and \$1,752,400 for the years ended September 30, 2016 and 2015, respectively. These amounts are included in contributions in the accompanying consolidated statement of activities. At September 30, 2016 and 2015, the Organization's liabilities under split-interest agreements were classified as Level 3 within the fair value hierarchy as required by US GAAP for fair value measurement (see Note 2).

8. ENDOWMENT

The Organization has interpreted the New York Prudent Management of Institutional Funds Act (“NYPMIFA”) as requiring the preservation of the original gift, as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Organization classifies as permanently restricted net assets (a) the original value of the gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Organization in a manner consistent with the standard of prudence prescribed by NYPMIFA.

In accordance with NYPMIFA, the Board of Directors considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- The duration and preservation of the fund
- The purpose of the Organization and the donor-restricted endowment fund
- General economic conditions
- The possible effects of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Organization
- The investment policies of the Organization
- When appropriate, alternatives to spending from donor-restricted endowment funds and the possible effects on the Organization

The Organization has a policy of appropriating for distribution a certain percentage (4% in 2016 and 4.5% in 2015) of its endowment fund’s average fair value over the prior twelve quarters. In establishing this policy, the Organization considered the long-term expected return on its endowment. This is consistent

AMERICAN FRIENDS OF THE HEBREW UNIVERSITY, INC.
Notes to Consolidated Financial Statements

with the Organization's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return. To cover reasonable expenses incurred in connection with the administration and stewardship of the endowment, the Organization also has a policy of applying a charge to its endowment fund's average fair value over the prior twelve quarters. Effective October 1, 2014, this charge was increased from 75 basis points (0.75%) to 100 basis points (1%) of its endowment fund's average fair value over the prior twelve quarters.

The Organization has adopted investment policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Organization must hold in perpetuity or for a donor-specified period(s). Under this policy, as approved by the Board of Directors, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of appropriate benchmarks without putting the assets at imprudent risk. To satisfy its long-term objectives, the Organization relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Organization targets a diverse asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

With the exception of endowment pledges and split-interest agreements, the following tables summarize endowment net asset composition by type of fund as of September 30, 2016 and 2015 (in thousands):

Endowment Net Assets Composition by Type of Fund	Unrestricted	Temporarily Restricted	Permanently Restricted	Total

9. TEMPORARILY RESTRICTED NET ASSETS

During the year, net assets released from restrictions consisted of the following (in thousands):

Purpose restrictions	
Grants to Hebrew University and other charitable and educational institutions in the United States and Israel	\$ (47,442)
Management fee charge to endowment	<u>(4,922)</u>
Total releases from net assets	<u>\$ (52,364)</u>

At year-end, temporarily restricted net assets are purpose-restricted and available to support the Hebrew University activities.

10. PENSION PLAN

The Organization has a defined-contribution pension plan for covered personnel, funded through an insurance company. Contributions into the plan are paid by both the Organization and, to the extent the employee is participating, by the employee. In order to be eligible to receive the match in the plan, after one year of employment employees must make a pretax contribution of at least 4.5% of their compensation. The Organization will then contribute 4.5% of compensation during the first 5 years of participation; 9% of compensation during the next 10 years of participation; and 13.5% of compensation after 10 years of participation, subject to statutory maximum contributions. Pension expense was \$325,100 and \$308,500 for fiscal 2016 and 2015, respectively.

11. OTHER POSTRETIREMENT BENEFITS

The Organization provides a benefit to qualified retirees hired prior to September 1, 2010 of \$1,500 annually to help defray the cost of health insurance. Two grandfathered retirees are not subject to the \$1,500 cap on this benefit payment. In addition, the Organization provides a flexible spending account to two retirees which has been refreshed every year since inception and pays up to \$3,000 of non-reimbursed medical expenses. The Organization also provides Medicare benefits capped at \$15,000 annually to two retirees. The accumulated postretirement benefit obligation related to these benefits totaled \$774,500 and \$774,500 as of September 30, 2016 and 2015, respectively, and is included in other long-term liabilities on the consolidated statements of financial position.

12. RELATED PARTY TRANSACTIONS

Included in marketable securities on the consolidated statements of financial position are assets with a fair value at September 30, 2016 and 2015 of \$5,824,000 and \$5,524,000, respectively, the oversight and management of which is under the control of the donor, who is a board member. Also included in marketable securities on the consolidated statements of financial position are real estate investment assets within an investment fund that a board member is a principal of. These assets had a fair value of \$3,274,000 and \$5,201,000 at September 30, 2016 and 2015, respectively. Additionally, included in marketable securities on the consolidated statements of financial position is an investment fund which another board member is a principal of. These assets had a fair value of \$2,679,000 and \$3,058,000, at September 30, 2016 and 2015, respectively.

13. COMMITMENTS

The Organization has one employment contract and leases office space under non-cancellable operating leases. The leases for office space provide for monthly rental payments to be made that include escalations each year. At September 30, 2016, minimum aggregate commitments under these obligations are as follows (in thousands):

Years Ending September 30,	
2017	\$ 1,299
2018	1,142
2019	751
2020	611
2021	149
Thereafter	63
Total	<u>\$ 4,015</u>

Rent expense for fiscal 2016 and 2015 was approximately \$747,000 and \$465,000, respectively.

In addition, since fiscal year 2001, the Organization has been investing in various alternative investments including private equity and venture capital funds. The total actual and committed investment contemplated as of September 30, 2016, was \$51,800,000. The balance of the unfunded commitment as of September 30, 2016 was \$5,127,000. The future alternative investment commitments will be met by an allocation of investments from the pooled endowment fund.

14. SUBSEQUENT EVENTS

The Organization evaluated its September 30, 2016 consolidated financial statements for subsequent events through April 3, 2017, the date the consolidated financial statements were available to be issued. The Organization is not aware of any subsequent events that would require recognition or disclosure in the accompanying consolidated financial statements.
